

Launches RustF Tip Trailer

Profit from new efficiency!

TIVA launches RustF series Tip trailer combines innovative solutions with a modern design. The RustF Tip Trailer is designed for daily use in rusty conditions and with our range of trailer models, is optimised better to your individual application. High payloads can be transported fast and safely thanks to the low tare weight of the semi-trailer. Range starts from 14 cub to 40 cub. TIVA SS TIP trailers are designed for maximum productivity – from the very first day and throughout their entire operating life. TIVA stands for top product quality and value retention.

Benefits

- No compromise in stability and intrinsic value
- Greater payload due to lower tare weight
- Extremely rugged and resilient
- Impressive handling on the road and in difficult terrains

Wide product range for customer-specific tipping semi-trailers

Your individual requirements are just as special as the range of applications for our tipping semi-trailers is wide. With our coordinated product range, you can design a complete product that makes no compromise and that satisfies all your needs.

TIVA offers you the tipping semi-trailer

- in different lengths
- with a steel or aluminium tipper body
- in half-pipe or box form
- with individual side wall thicknesses
- with practical tailgates
- with different axles

One Strong brand - many sales arguments

First-class quality and reliability characterise our products. Our claim: to realise market-oriented innovations through the best technical solutions - with motivated employees, cutting-edge production processes and the contribution made by our employees.

TIVA ARAI certified product quality also means excellent value retention. This is why all components are designed for harsh operating conditions and a long service life. Our quality features are excellent workmanship, reliability and low wear and tear. In nutshell, You are always in good hands with us.
